

Adaptive Suite

Unified Business Intelligence and Corporate Performance Management that's innovative, powerful and intuitive for every business user – all built from the "cloud up"

Make Better, More Informed Decisions, Faster

Technology, complexity and speed weren't meant to be our enemies. They should be allies, an opportunity to grow and compete in ways we never imagined. All it takes is the right partner. At Adaptive Insights we're committed to making difficult and complex business decisions feel intuitive.

The Adaptive Suite is the world's #1 cloud CPM and BI suite. It delivers unified planning, reporting, consolidation and analytics solutions that are modern, powerful and intuitive for all types of business users. The Adaptive Suite is transformational at the core, with built-in analytics, collaboration, and web as well as mobile access from anywhere. Making better business decisions has never been easier.

- Reduces time spent on budgeting, planning, consolidation, reporting, & analytics by 50-90%
- Increases cost efficiency by 75%+ compared to legacy on-premise solutions
- Proven from mid-size to enterprise, with 2,000+ customers in 85+ countries
- Top Satisfaction rating as ranked by leading industry analysts

Adaptive Planning

Adaptive Planning provides comprehensive budgeting, planning, and forecasting that's proven to reduce cycle times by up to 90%. With an incredibly intuitive "Excel-like" interface, it's easy to collaboratively plan and forecast revenue, expenses and headcount, create rolling forecasts, and more.

Adaptive Consolidation

Cut time and resources spent closing and reporting with Adaptive Consolidation. With a real-time consolidation engine, Adaptive Consolidation includes journal entry management, intercompany eliminations, account reclassifications, and even collaborative close process management – all as an easy-to-deploy cloud service.

Adaptive Discovery

It's simple to visually uncover insights into financial, sales, and operational performance with Adaptive Discovery. Intuitive dashboards, interactive scorecards, and what-if modeling make it easy for every business user to analyze results and trends.

Adaptive Reporting

Adaptive Reporting provides comprehensive financial, management, board and transactional reporting, all available through an easy to use drag-and-drop report builder. Our web-native report builder can be used for ad-hoc management reports, and Adaptive OfficeConnect can be used for presentation-quality board reporting across Microsoft Excel, Word, and PowerPoint.

Adaptive Integration

With a powerful integration platform that connects on-premise and cloud investments to the Suite, Adaptive Integration provides a comprehensive range of connectors to leading ERP, CRM, and proprietary and data warehouse sources. It's easier than ever before to turn data to insight.
